

Alexis Falicov, M.D., Ph.D.

Dr. Falicov is an orthopedic surgeon with subspecialty training in spine surgery. He has a particular interest in minimally invasive surgery, spine tumors and complex spine deformity. Although he is specially trained in spine surgery, Dr. Falicov has extensive experience in general orthopedics, trauma and fracture care, and total joint replacement of the hip, knee and shoulder. Dr. Falicov combines extensive education, distinguished awards and honors and research in science and mathematics, specifically chemistry and physics, in his orthopedic practice.

Special Surgical Interests and Extensive Training

Spine trauma, tumors, intradural spinal cord lesions, intervertebral disk disease, degenerative and congenital deformities, general orthopedic trauma, and general orthopedics.

Education

Pre-Medical Education: University of California at Berkeley (B.A., Mathematics and Physics); Massachusetts Institute of Technology (Ph.D.); University of California, San Francisco (postdoctoral fellowship)
Medical School: Harvard Medical School, Boston, MA
Residency: University of Washington Department of Orthopaedics and Sports Medicine, Seattle, WA
Fellowship: Orthopaedic and Neurosurgery Spine Program, Vancouver General Hospital, Vancouver, BC

Associations/Organizations/Societies

Board Certified, American Board of Orthopaedic Surgery
American Academy of Orthopaedic Surgeons
King County Medical Society
North American Spine Society

About Dr. Falicov

Dr. Falicov enjoys living in the greater Seattle area with his wife Betty and their two children, Ethan and Nikki. Dr. Falicov speaks fluent Spanish and American Sign Language. He also speaks French and Mandarin Chinese.

"I believe in a comprehensive, analytical approach to spine and orthopedic problems. I use both non-operative and operative techniques to achieve the optimal outcome for patients with an emphasis on the least invasive method to achieve an excellent outcome. I am a strong advocate for patient education and autonomy."
